

Dr. Ernest W. Ramsey Manitoba Prostate Centre

The Dr. Ernest W. Ramsey Manitoba Prostate Centre at CancerCare Manitoba is the provincial centre for prostate disease. The centre provides timely access to diagnosis and therapy of both benign and malignant diseases of the prostate. You may be referred to the centre by your urologist or family physician for assessment and diagnosis by our health-care team.

Our multidisciplinary team of urologic surgeons, radiation oncologists, medical oncologists, nurses, a psychosocial clinician and registered dietitian offer assessment, diagnostics and treatment for men with prostate disease.

Patients and their families also receive education and supportive care, as well as co-ordinated access to additional resources as necessary.

If you are diagnosed with prostate disease, there are a number of treatments available and our team will help you to decide which is best for you.
