

Websites of interest to prostate cancer patients

- 1) www.manpros.org

Web page of the Manitoba Prostate Cancer Support Group. Lots of information about our meetings, newsletters, resources and other material.

- 2) www.pcf.org

The Prostate Cancer Foundation is among the best sites for finding all sorts of information about prostate cancer. This is a must-see site for all patients.

- 3) <https://prostatecancernewstoday.com>

Excellent source of the latest advances in research, clinical trials and treatment.

- 4) www.cancercare.mb.ca/home/

Information about the cancer care system in Manitoba, including resources and how to access them.

- 5) www.cancerresearch.org

Focuses on advances in immunotherapy for research, treatment and eventual cure of cancer, including prostate cancer.

- 6) www.cancer.org/cancer/prostate-cancer.html

The American Cancer Society provides detailed information on prostate cancer and its treatment.

- 7) www.prostate-cancer.com

This is an excellent listing of treatment options, presented in chart form. Includes many links for further exploration.

The above are just a few sites with useful information on prostate cancer. These provide an entry into this area of medicine, but there are innumerable others. Simply type “prostate cancer information” into your search engine and voila, more information than you can possibly digest.

Have fun exploring and learning more.
